

Lucas Da Silva

14 Riverview Dr. • Stuart, Florida 34996 • lucas_da_silva@brown.edu • 415-619-4550

Education

Brown University

Neuroscience/Computational Neuroscience Concentration B.S. GPA 4.0 2029

The Pine School

GPA 4.67, SAT 1490, Pine Scholar Scholarship Full-Ride, Head of School Award 2025

Experience

Brown University, Neuroscience Department, Nassar Lab Research Assistant

Providence, Rhode Island
March 2026 – Present

- EEG data collection for behavioral studies
- Work with computational neuroscience models to understand human learning
- Used computer simulations of situations triggering different brain states
- Developed skills in researching, data collection, and analysis

Brown University, Cognitive and Psychological Sciences, Perception, Action & Cognition Lab Research Assistant (SPRINT UTRA Paid Award)

Providence, Rhode Island
September 2026 – December 2026

- Visual Foraging Under Different Modes of Action
- Worked with human subjects to collect cognitive science data
- Learned about computational approaches to psychology
- Developed skills in researching, data collection, and analysis

Cleveland Clinic Volunteer

May 2026 – Present

- Communicated with patients through rounding, ensuring satisfaction
- Worked alongside nurses and staff on patient organization
- Assisted Nursing Informatics with technology application for patients
- Helped directly with stocking and utility

Florida Oceanographic Society Intern

September 2023 – September 2025

- Taught about local habitats and animals to the community
- Communicated with visitors, informing them about the animals held
- Worked alongside biologists on research and conservation projects
- Helped directly with projects in seagrass matting and oyster bagging

Johns Hopkins Internship in Brain Sciences Intern

May 2024 – July 2024

- Learned neuroscience concepts in a lecture-style format
- Participated in events targeting careers in medicine and research
- Explored neuroscience research techniques
- Developed skills to understand scientific papers and research

- Presented a final project along with a small group on research in the hippocampus

Leadership & Activities

Brown Opinion Project	Providence, Rhode Island
Research and Polling Director (E-Board)	2025 – Present
• Created a set of polling questions quarterly, based on student interests and relevant topics • Analyzed the data collected to create graphics and conclusions about the student population • Interacted with the community directly by polling in-person • Developed skills in data management, communication, presenting, and tabling	
Design x Health	Providence, Rhode Island
Member/CATCH Team Member	2025 – Present
• Adapt toys for children with disabilities to make them more accessible • Work with electronics and soldering to remake toys • Work alongside a team to complete healthcare and technology projects • Furthered skills in teamwork, technology, and healthcare	
No Empty Seats	Providence, Rhode Island
Member	2025 – Present
• Worked to spread awareness about mental health to the community • Directly interact with the community through pop-up events aimed at relieving stress • Participated in creating a positive environment at Brown University through the messages shared on social media and in person • Learned about mental health and communication, both personal and to a community	
Brown Political Review	Providence, Rhode Island
Photographer and Multi-Media	2025 – Present
• Published politically oriented photography on the BPR magazine website • Worked with the magazine to capture moments locally or nationally • Aimed to both display a message and art • Developed skills in media, design, and production	
First Technology Challenge Robotics Team	Hobe Sound, Florida
Founder and Captain	2023 – 2025
• Worked with teachers and administration to set up and fund a competitive high school robotics team • Allowed students to learn engineering and coding, which is not formally offered at the school • Lead the team by breaking down roles and organizing the members • Succeeded competitively since the founding year, making it to states and winning multiple design awards • Developed skills in organization, leadership, coding, engineering, and communication	

Skills & Interests

Technical: Fluent and experienced with PowerPoint, Google Sheets/Excel, and Google Docs, foundational knowledge in JavaScript and Python, experienced with VS-Code and Quarto, experienced in CAD design, 3D printing, and software such

as Onshape, experienced with data analysis and STATA

Language: Fully Fluent in Spanish, English, and Portuguese

Interests: Soccer, Reading, Playing Video games, Photography/Art

Relevant Coursework

General Chemistry (with lab), Neuroscience, Neurobiology, Computational Neuroscience, Physiology (with lab), Statistics, History
